

## GENERAL INFORMATION - ENAMEL BATH TUBS & SHOWER TRAYS

- 1) **Safe Grip** is designed to provide a slip resistant surface to enamel bath tubs and shower trays thereby rendering obsolete the necessity to use ugly and unhygienic bathmats.
- 2) **Safe Grip** ***SHOULD NOT*** be applied to bath tubs or shower trays manufactured in plastic or acrylic based materials.
- 3) **If in doubt please consult the company for advice before applying the product.**
- 4) In all cases a small test area of **Safe Grip** should be applied to establish the length of time required to produce the desired level of slip resistance.
- 5) In the majority of cases an exposure period of between 2 and 4 minutes is all that is required to obtain a suitable level of slip resistance.
- 6) **IMPORTANT:** In all cases do not allow the **Safe Grip** product to dry out on the surface being treated.

### 7) APPLICATION:

A: Thoroughly clean & rinse the surface of the bath tub or shower tray to be treated and dry off all surplus moisture with a clean dry cloth.

B: Do not plug the outlet and apply the **Safe Grip** liberally and evenly over the whole base area of the bath tub or shower tray using a sponge applicator, keep working the treatment to prevent the solution draining from the open outlet and to ensure the area of the bath or shower base furthest from the outlet receives the same exposure time as the area around the outlet.

C: At the end of the exposure period rinse off with clean water, the bath tub or shower tray is now ready for immediate use.

### 8) PACKAGING & COVERAGE:

**Safe Grip** is supplied in five container sizes, 250ml and 500ml bottles and 1 litre, 2.5 litre and 5 litre jugs. The containers are fitted with screw caps to facilitate good storage conditions for unused product.

Generally 1 x 500ml of **Safe Grip** will treat between 3 and 5 bath tubs and 6 to 10 shower trays.

### 9) Health & Safety:

At all times applicators should wear appropriate safety clothing and maintain good standards of hygiene. Please consult the Material Safety Data Sheet for detailed advice on handling this product.

**SAFE GRIP SERIOUSLY REDUCES THE RISK OF SLIPPING**
